Appendix 1: Personal data breach procedure		12-13

1. Aims

- 1.1** Our Federation aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the UK General Data Protection Regulation (UK GDPR), the Data Protection Act 2018 (DPA 2018) and the Data (Use and Access) Act 2025 (DUAA) This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

- 2.1** This policy meets the requirements of the UK GDPR and the provisions of the DPA 2018 and DUAA 2025. It is based on guidance published by the Information Commissioner's Office (ICO) on the UK GDPR and the ICO's code of practice for subject access requests.
- 2.2** It meets the requirements of the Protection of Freedoms Act 2012 when referring to our use of biometric data.
- 2.3** It also reflects the ICO's code of practice for the use of surveillance cameras and personal information.
- 2.4** In addition, this policy complies with our funding agreement and articles of association.

3. Definitions

Term	Definition
Personal data	Any information relating to an identified, or identifiable, individual. This may include the individual's: • Name (including initials) • Identification number • Location data • Online identifier, such as a username It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.
Special categories personal data	Personal data which is more sensitive and so needs more protection, including information about an individual's: • Racial or ethnic origin • Political opinions • Religious or philosophical beliefs • Trade union membership • Genetics • Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes • Health – physical or mental • Sex life or sexual orientation
Processing	Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying. Processing can be automated or manual.
Data subject	The identified or identifiable individual whose personal data is held or processed.
Data controller	A person or organisation that determines the purposes and the means of processing of personal data.
Data processor	A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.
Personal data breach	A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.

4. The data controller

- 4.1** Our Federation processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.
- 4.2** The Federation is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

- 5.1** This policy applies to all staff employed by our Federation, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

6. Governing board

- 6.1** The governing board has overall responsibility for ensuring that our Federation complies with all relevant data protection obligations.

7. Data protection officer

- 7.1** The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.
- 7.2** They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on Federation data protection issues.
- 7.3** The DPO is also the first point of contact for individuals whose data the Federation processes, and for the ICO.
- 7.4** The DPO is contactable via dpo@windmillfed.org.uk

8. Executive Headteacher(s)

- 8.1** The Executive Headteachers act as the representative of the data controller on a day-to-day basis.

9. All staff

- 9.1** Staff are responsible for:
 - Collecting, storing and processing any personal data in accordance with this policy
 - Informing the Federation of any changes to their personal data, such as a change of address
 - Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the UK
 - If there has been a data breach

- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

10. Data protection principles

10.1 The UK GDPR is based on data protection principles that our Federation must comply with. The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

11. Collecting personal data

Lawfulness, fairness and transparency

11.1 We will only process personal data where we have one of 6 ‘lawful bases’ (legal reasons) to do so under data protection law:

- The data needs to be processed so that the Federation can fulfil a contract with the individual, or the individual has asked the Federation to take specific steps before entering into a contract
- The data needs to be processed so that the Federation can comply with a legal obligation
- The data needs to be processed to ensure the vital interests of the individual e.g. to protect someone’s life
- The data needs to be processed so that the Federation, as a public authority, can perform a task in the public interest, and carry out its official functions
- The data needs to be processed for the legitimate interests of the Federation or a third party (provided the individual’s rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear consent

11.2 For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the UK GDPR, Data Protection Act 2018 and the Data (Use and Access) Act 2025.

11.3 Under DUAA 2025, the Secretary of State may designate additional types of special category data beyond those listed in UK GDPR Article 9. The Federation will monitor and update its processing activities accordingly.

11.4 If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent where the pupil is under 16 (except for online counselling and preventive services).

11.5 Where Digital Verification Services (DVS) are used to confirm identity or access services, the Federation will ensure transparency, secure access controls, and audit logging in accordance with DUAA 2025.

Individuals will be informed when DVS is used and may request alternative verification methods.

11.6 Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

Limitation, minimisation and accuracy

11.7 We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

11.8 If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

11.9 Staff must only process personal data where it is necessary in order to do their jobs.

11.10 When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the Pupil or Staff Data Retention Policy.

12. Sharing Personal Data

12.1 We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carers that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils, for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

12.2 We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

12.3 We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

12.4 Where we transfer personal data outside of the UK, we will do so in accordance with data protection law.

13. Subject access requests and other rights of individuals

13.1 Individuals have a right to make a 'subject access request' to gain access to personal information that the Federation holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

13.2 Subject access requests should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

13.3 If staff receive a subject access request they must immediately forward it to the DPO.

14. Children and Subject Access Requests

14.1 Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

14.2 Children aged 12 and above are generally regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our Federation may not be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

15. Responding to Subject Access Requests

15.1 When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

15.2 We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

15.3 Where clarification is required to process a SAR, the statutory response period may be paused until sufficient detail is provided. The Federation will conduct searches that are reasonable and proportionate, and will not be required to retrieve data from every possible source if it would be excessive or impractical.

15.4 If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

15.5 A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

15.6 When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

16. Other data protection rights of the individual

16.1 In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the UK
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

16.2 Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

17. Parental requests to see the educational record

17.1 Parents, or those with parental responsibility, can have access to their child's educational record (which includes most information about a pupil) within 1 month of a written request.

18. Biometric recognition systems

- 18.1** Where we use pupils' biometric data as part of an automated biometric recognition system (for example, pupils use finger prints to receive school dinners instead of paying with cash) we will comply with the requirements of the Protection of Freedoms Act 2012.
- 18.2** Parents/carers will be notified before any biometric recognition system is put in place or before their child first takes part in it. The Federation will get written consent from at least one parent or carer before we take any biometric data from their child and first process it.
- 18.3** Parents/carers and pupils have the right to choose not to use the Federations biometric system(s). We will provide alternative means of accessing the relevant services for those pupils.
- 18.4** Parents/carers and pupils can object to participation in the Federations biometric recognition system(s), or withdraw consent, at any time, and we will make sure that any relevant data already captured is deleted.
- 18.5** As required by law, if a pupil refuses to participate in, or continue to participate in, the processing of their biometric data, we will not process that data irrespective of any consent given by the pupil's parent(s)/carer(s).
- 18.6** Where staff members or other adults use the Federations biometric system(s), we will also obtain their consent before they first take part in it, and provide alternative means of accessing the relevant service if they object. Staff and other adults can also withdraw consent at any time, and the Federation will delete any relevant data already captured.

19. CCTV

- 19.1** We use CCTV in various locations around the Federation estate to ensure it remains safe. We will adhere to the Federation CCTV Policy at all times.
- 19.2** We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.
- 19.3** Any enquiries about the CCTV system should be directed to the Executive Headteacher(s).

20. Photographs and videos

- 20.1** As part of our school activities, we may take photographs and record images of individuals within our schools.
- 20.2** Where we need parental consent, we will clearly explain how the photograph and/or video will be used to both the parent/carers and pupil. Where we don't need parental consent, we will clearly explain to the pupil how the photograph and/or video will be used.

20.3 Uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- Online on our school website or social media pages

20.4 Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

20.5 When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

21. Data protection by design and default

21.1 We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where the Federations processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our schools and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure

22. Data security and storage of records

22.1 We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

22.2 In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use

- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from the school office
- Passwords are used to access Federation computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for Federation-owned equipment.
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

23. Disposal of records

- 23.1** Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.
- 23.2** For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the Federation's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law

24. Personal Data Breaches

- 24.1** The Federation will make all reasonable endeavours to ensure that there are no personal data breaches.
- 24.2** In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix 1.
- 24.3** When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:
- A non-anonymised dataset being published on the Federation website which shows the pupils eligible for pupil premium
 - Safeguarding information being made available to an unauthorised person
 - The theft of a Federation laptop containing non-encrypted personal data about pupils

25. Training

- 25.1** All staff and governors are provided with data protection training as part of their induction process.
- 25.2** Data protection will also form part of continuing professional development, where changes to legislation, guidance or the Federations processes make it necessary.

26. Monitoring Arrangements

- 26.1** The DPO is responsible for monitoring and reviewing this policy.
- 26.2** This policy will be reviewed every 2 years and shared with the full governing board.

27. Complaints

27.1 The Federation is committed to upholding the rights of individuals under data protection law. If any person believes that the Federation has failed to comply with its obligations under the UK General Data Protection Regulation (UK GDPR), the Data Protection Act 2018 (DPA 2018), or the Data (Use and Access) Act 2025 (DUAA), they have the right to raise a complaint.

27.2 Complaints should be submitted in writing to the Federations Data Protection Officer (DPO). The complaint should include:

- The nature of the concern
- Relevant dates and details
- Any supporting documentation

27.3 The Federation will acknowledge the complaint within 5 working days and aim to respond in full within 20 working days.

27.4 Where a complaint relates to a Subject Access Request (SAR), the Federation may pause the statutory response period while clarification is sought, in accordance with DUAA 2025.

27.5 If the complainant is not satisfied with the Federations response, they may escalate the matter to the Information Commissioner's Office (ICO):

Information Commissioner's Office Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF Website: <https://ico.org.uk>

Appendix 1: Personal data breach procedure

This procedure is based on guidance on personal data breaches produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people
- The DPO will alert the Executive Headteacher(s) and the Chair of Governors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned
- If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.
- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the Federations computer system
- Where the ICO must be notified, the DPO will do this via the 'report a breach' page of the ICO website within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned

- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause of effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)
- Records of all breaches will be stored on the Federations computer system.
- The DPO and Executive Headteacher(s) will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Actions to minimise the impact of data breaches

- We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Sensitive information being disclosed via email (including safeguarding records)

- If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it
- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted
- Other types of breach that you might want to consider could include:
 - Details of pupil premium interventions for named children being published on the school website
 - Non-anonymised staff pay information being shared with governors
 - A school laptop containing non-encrypted sensitive personal data being stolen or hacked
 - The school's cashless payment provider being hacked and parents' financial details stolen
