

## THE WINDMILL PRIMARY FEDERATION – West Walton

### Pupil Premium Strategy Statement 2024-2027

This statement details our school's use of pupil premium (and recovery premium) for the 2025 to 2026 academic year to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

#### School overview

| Detail                                            | Data                          |
|---------------------------------------------------|-------------------------------|
| School name                                       | West Walton Primary School    |
| Number of pupils in school                        | 193                           |
| Proportion (%) of pupil premium eligible pupils   | 20%                           |

#### Funding overview

| Detail                                                    | Amount         |
|-----------------------------------------------------------|----------------|
| Pupil premium funding allocation this academic year       | £61,261        |
| Pupil premium funding carried forward from previous years | £0             |
| <b>Total budget for this academic year</b>                | <b>£61,261</b> |

## THE WINDMILL PRIMARY FEDERATION – West Walton

### Part A: Pupil Premium Strategy plan Statement of intent

Within the Windmill Primary Federation, we believe that every child is entitled to the same level of opportunity, regardless of social circumstance. It is our intention that all children who attend West Walton Primary School have access to the same level of academic and social opportunity. Through the targeted investment of funding from the Local Authority, it is our intention to remove as many social and economic barriers as possible. Our Pupil Premium Strategy is therefore aimed at helping children to strive for both academic success as well as emotional and social wellbeing.

We strive to meet the considerable challenges young people in our care may face, including the most vulnerable of our community. This includes but is not limited to those supported by Social Services, Young Carers, and those who grow up with the label 'disadvantaged'. Indeed, if our investments are well researched and implemented, no child within our school should ever feel disadvantaged. It is our duty to ensure that those children are advantaged in order to close that gap.

As such, the investments and activities laid out within our Pupil Premium Statement are designed to support academic, social and emotional needs, helping to develop well rounded individuals who can make a positive contribution to the community.

Research shows that the greatest impact on reducing the gap between historically disadvantaged pupils and their peers is high quality teaching, and this is at the centre of our approach. In order to close the attainment gap, it is crucial that all children have access to High Quality Teaching, with robust analysis of progress. Only through identifying the gaps are we able to consider how best to close them. This also benefits all pupils without taking away from the support in place for children from lower income backgrounds.

Our strategy is part of the wider School and Federation philosophies and works in tandem with the intentions laid out in our SEND Information Report and our Accessibility Plans to ensure all children have equal opportunity during their time with us. Furthermore, all children should leave the school with a greater chance of success in life, in comparison to the day they arrive.

Our review process will be reflective of local challenges which may arise for the young people in our care, and take local factors into consideration. It is also important to be mindful of the ever-changing landscape for young people in a modern, online world. As such, if challenges arise within the 3-year period the plan can be adjusted to meet this demand.

To ensure success for our disadvantaged pupils we will ensure:

- Disadvantaged children have access to the same High-Quality teaching as their peers
- Disadvantaged pupils are challenged appropriately in the work they are set
- The work set is appropriate to level and need of each pupil regardless of social barriers
- Monitor and intervene early where need is identified; implementing the correct support where required.
- Adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve.

## THE WINDMILL PRIMARY FEDERATION – West Walton

### Challenges

This details the key challenges to achievement identified among our disadvantaged pupils.

| Challenge | Detail of challenge                                                                                                                                                                                                                                                                                                                                                                            |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1         | Historic Assessments demonstrate an academic gap to peers when comparing disadvantaged and non-disadvantaged pupil's academic outcomes at the end of Year 6.                                                                                                                                                                                                                                   |
| 2         | Assessments and observations indicate a clear gap in progress for writing in comparison with peers nationally.                                                                                                                                                                                                                                                                                 |
| 3         | Assessments and observations indicate a high level of impact on our disadvantaged pupils. On entry to Reception class in the last 3 years, between 40% and 100% of our disadvantaged pupils arrive below age-related expectations compared to 28%-55% of other pupils. Due to the fluctuation of cohort size, the data is difficult to extrapolate. Efforts are made to narrow the gap by KS2. |
| 4         | Information from teachers via our safeguarding systems indicate an increase in concern for the safeguarding and wellbeing of our disadvantaged pupils.                                                                                                                                                                                                                                         |
| 5         | Historic lack of ambition and aspirations amongst disadvantaged families within the community, coupled with some parent's negative experiences of the school system in their own childhood. This can lead to a lack of engagement at times.                                                                                                                                                    |
| 6         | Children from economically disadvantaged backgrounds cannot afford to access some of the opportunities made available for all pupils. This includes clubs/ trips/ wrap-around care, and funding for necessary medical assessments.                                                                                                                                                             |
| 7         | Attendance figures show that lower attendance among disadvantaged children (89%) compared with those who are not disadvantaged (94%).                                                                                                                                                                                                                                                          |

### Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan- 2027**, and how we will measure whether they have been achieved.

| Intended outcome                                                                                                        | Success criteria                                                                                                                                                                                                                  |
|-------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reduced gap in attainment for children from advantaged and disadvantaged backgrounds by the time they leave the school  | Gap in attainment at the end of KS2 to be smaller than the gap in attainment at the end of KS1. Children from Disadvantaged backgrounds to have the same opportunity to progress as their peers.                                  |
| Writing standards and attainment to improve for all pupils, including disadvantaged pupils                              | KS2 outcomes to demonstrate an increased percentage of pupils achieving ARE in writing in comparison to previous year.                                                                                                            |
| Improved attainment in Maths and Reading for all Pupils including disadvantaged pupils                                  | KS2 outcomes to demonstrate an increased percentage of pupils achieving ARE in Maths and Reading in comparison to previous year.                                                                                                  |
| To achieve and sustain improved wellbeing for all pupils in the school community, particularly our disadvantaged pupils | Sustained high levels of wellbeing demonstrated by outcomes of Pupil and Parent surveys, number of safeguarding concerns/ incidents reducing over a 3-year period. Significant attendance at community and enrichment activities. |
| To build on the improving relationships with disadvantaged families                                                     | Significant attendance at community and enrichment activities. Outcomes evidenced by engagement with Parent Support advisors and parent surveys.                                                                                  |
| Disadvantaged children to access the same opportunities as non-disadvantaged children                                   | Continued access to school activities and opportunities regardless of social and economic background                                                                                                                              |

## THE WINDMILL PRIMARY FEDERATION – West Walton

### Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

### Teaching (for example, CPD, recruitment and retention)

| Activity                                                                                                               | Evidence that supports this approach                                                                                                                                                                                                                                                                                                                     | Challenge's addressed |
|------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| Continued investment in Phonics teaching programme (Read, Write Inc) training and resources.                           | Research indicates that a strong foundation in Phonics is required for the development of Reading, which in turn leads to improved academic outcomes<br><a href="#">Phonics   EEF</a><br><a href="https://educationendowmentfoundation.org.uk">(educationendowmentfoundation.org.uk)</a>                                                                 | 1,2,3                 |
| CPD and release time for Subject Leads as required, as well as CPD around key issues affecting disadvantaged children. | Continuing Professional Development (CPD) is widely recognised as a fundamental way to improve the professional standards and skills of individuals, thus ensuring High Quality Teaching<br><a href="#">The Importance of Continuing Professional Development (CPD)   The CPD Certification Service</a><br><a href="https://cpduk.co.uk">cpduk.co.uk</a> | 1,2,3                 |
| Investment/CPD for non-core subjects along with assorted resources. Adoption of WNAT Curriculum.                       | Extensive evidence linking childhood social and emotional skills to improved school outcomes<br><a href="#">Social and emotional learning   EEF</a><br><a href="https://educationendowmentfoundation.org.uk">(educationendowmentfoundation.org.uk)</a>                                                                                                   | 3,4                   |

### Part B: Review of outcomes in the previous academic year Pupil premium strategy outcomes

This details the impact our pupil premium activity had on pupils in the 2024/25 academic year.

We have analysed the performance of our school's disadvantaged pupils during the previous academic year, drawing on national assessment data and our own internal summative and formative assessments. There remains a significant gap across all core areas between disadvantaged and non-disadvantaged pupils.

Outcomes for pupils in Y6 in 2025 were well below national averages with 33% of all pupils attaining RWM and 0% GDS.

| July 2025      | Read (NA) % | Write (NA) % | Maths (NA) % | RWM (NA) % |
|----------------|-------------|--------------|--------------|------------|
| EXS all pupils | 47 (75)     | 40 (72)      | 40 (74)      | 33 (62)    |
| EXS (PP)       |             |              |              |            |
| GDS all pupils |             |              |              |            |
| GDS (PP)       |             |              |              |            |

Outcomes in the phonics screening check in Year 1 were as follows: 78% (7/9 all pupils) this is in line with the national average of 80%. Outcomes were higher for our disadvantaged pupils with 100% (2/2 pupils) passing the check.

Implementation of the Read Write Inc Phonics programme has ensured that most pupils engage well and make progress in early reading. This is reflected in a three-year upward trend in Phonics Screening Check (PSC) outcomes, moving closer to national averages. Year 2 PSC attainment has been sustained over a 2-year period, with 100% of disadvantaged pupils passing the check.

In EYFS, the cohort (all pupils) 7/12 (58%) achieved a Good Level of Development (GLD). There were 12 pupils in EYFS (24/25) - outcomes were within 1 pupil of reaching the national average in July 2025. Disadvantaged attainment was 0/2 (0%) GLD.

As a school, we continue to prioritise closing the gap between our disadvantaged and non-disadvantaged pupils. We will further our efforts in developing every teacher a teacher of SEND to ensure that these pupils achieve as well in all subjects, including reading, writing and maths, as teachers skilfully adapt provision and enable strong progress in maths as well as grammar, spelling and punctuation.

**Next Steps:** To further close the gap between disadvantaged and non-disadvantaged pupils in 25-26, a combination of interventions targeting individuals and groups, 1:1 booster sessions and in-class focus groups will continue, alongside quality first teaching. RWI Catch Up/Fast Track used to target lowest 20%, including disadvantaged pupils. The ambition is that all pupils achieve equally well in all core subjects, with teachers effectively tailoring instruction to support strong progress.

## **THE WINDMILL PRIMARY FEDERATION – West Walton**

The Parent Support Advisor is employed to make links with outside agencies to support disadvantaged families access further help.

Children with persistent absence are supported to access school by overcoming emotional barriers and supporting parents. This support first approach has been crucial in assisting disadvantaged families.

Breakfast and afterschool clubs are offered to all pupils and funded for disadvantaged children where necessary.

Specific pupils receive funding and support to access specialist school placements (eg; SRB units).

Specific pupils receive paid support to access enhanced provision- school clubs, sports clubs; visits, trips and residential etc.

### Further information (optional)

Our Pupil Premium Strategy is supplemented by additional measures embedded throughout our practice that does not necessarily impact funding. This includes but is not limited to:

- Whole school ethos of helping all children to meet need, regardless of start in life
- High Quality Teaching for all at the heart of our education principles
- Development of High Quality Verbal feedback to ensure improved outcomes for all [Feedback | EEF \(educationendowmentfoundation.org.uk\)](#)
- Utilising DfE funded opportunities, such as development of mental health leads
- Investing time where needed with families, parents and staff

This strategy is based on considering the needs of our community and the many challenges they have faced in recent years. This is considered alongside research conducted by the DfE and the Education Endowment foundation in order to develop a cost-effective plan with achievable and measurable outcomes.

The plan may change if needed before the next formal review, as no child or family should have to wait an arbitrary review period to access the support they need to succeed.

Strategy established with support from the DfE recommendations, in line with advice from EEF and The Key for Schools online support network.
